

Amendments to the Claims:

Claims 1-6 (cancelled)

Subst
C1
B1

~~Claim 7 (currently amended): A process for making a dried porous, flake shaped, uncomplexed agglomerated modified cyclodextrin product comprising~~

~~drying an aqueous solution of uncomplexed modified cyclodextrin on a double-drum dryer; and~~

~~recovering a dried porous, flake-shaped, uncomplexed agglomerated modified cyclodextrin product having a particle distribution of about 90% or more by weight less than or equal to 200 microns and about 50% or more by weight greater than or equal to 20 microns.~~

Subst
C1

~~Claim 8 (previously amended): The process of claim 7 wherein said cyclodextrin is a hydroxypropylated beta-cyclodextrin.~~

~~Claim 9 (previously amended): The process of claim 7 wherein said drum dryer has steam-heated drums rotated at about 1 to about 5 revolutions per minute.~~

~~Claim 10 (previously amended): The process of claim 9 wherein said drums are heated with steam at a pressure of about 100 psig.~~

Claim 11 (previously amended): The process of claim 7 wherein said aqueous solution has a solids content of greater than or equal to about 45% by weight.

Sub C
Claim 12 (currently amended): A dried porous, flake-shaped, uncomplexed agglomerated modified cyclodextrin product having about 90% or more by weight of said product with a particle size of less than or equal to about 200 microns; and about 50% or more by weight of said product with a particle size of greater than or equal to about 20 microns, wherein said product is made by a process comprising

drying an aqueous solution of uncomplexed modified cyclodextrin on a drum dryer; and

recovering a dried porous, flake-shaped, uncomplexed modified cyclodextrin product having said particle size.

Claim 13 (original): The product of claim 12 wherein said product has a dissolution time in water of less than about 5 minutes at 75°F and 10% solids.

Claim 14 (cancelled)

Claim 15 (original): The product of claim 12 wherein said cyclodextrin is a beta-cyclodextrin.

~~B3~~ Claim 16 (currently amended): The product of claim ~~14~~ 12 wherein said drum dryer has steam-heated drums rotated at about 1 to about 5 revolutions per minute.

Claim 17 (original): The product of claim 16 wherein said drums are heated with steam at a pressure of about 100 psig.

~~B4~~ Claim 18 (currently amended): The product of claim ~~14~~ 12 wherein said aqueous solution has a solids content of greater than or equal to about 45% by weight.
